ADMISSIONS OPEN 2024

Epidemiology of non-communicable diseases: level I

The participants of this two-day course will gain insight into the latest knowledge and develop skills to achieve NCD-related global targets. In addition to acquiring fundamental knowledge and tools necessary in propagating work in public health and NCDs, the course offers the opportunity to connect with colleagues and expand professional networks.

Course aims

The Level I course will enable participants to:

- understand novel challenges in the area of NCDs, and work on solution-oriented approaches to reduce the burden of NCDs;
- acquire skills in developing NCD prevention approaches;

Instructors: Dr. Jeneen Panezai, Prof. Dr. Shahzad Ali Khan
